

grow your practice with TeethXpress® magazine

A POWERFUL TOOL FOR PATIENT EDUCATION, ENGAGEMENT AND CASE ACCEPTANCE

BioHorizons created *TeethXpress* magazine to help you educate prospective and existing patients about dental implants and regenerative treatment. With more than 20 real patient testimonials, this 68-page, high-quality publication combines relatable stories, before/after, beautiful graphics and simplified explanations so patients can easily grasp the information. An educated patient is more likely to follow through on treatment recommendations, increasing case acceptance.

New content reassures patients that the dental office has always been safe and is now even safer. To further put patients at ease, magazines are individually wrapped. Not only is *TeethXpress* magazine extremely informative – helping answer many patient questions related to dental implant treatment and the benefits of the services you provide – it is also entertaining! With articles about celebrities with dental implants and smile makeovers, patients will enjoy reading about all the life-changing benefits dental implants can provide while gaining a better understanding of how the process works and the many reasons they should say “yes” to your treatment solutions!

Award of Excellence - Best Magazine
2020 APEX Awards for Publication Excellence
